Cebu, Philippines

18th Asia Pacific Congress of Pediatrics

**Redesigning the Horizon of Pediatric
Healthcare in the Asia Pacific**

**NOVEMBER 14-17, 2024
WATERFRONT CEBU CITY HOTEL**

After 50 years, the Asia Pacific Congress of Pediatrics is set for a triumphant return to the Philippines. From November 14 to 17, 2024, Cebu City will host renowned experts and delegates hailing from the 22 member countries of the Asia Pacific Pediatric Association (APPA).

This Congress pledges to serve as a dynamic forum for the latest updates, innovations, exchange of ideas and collaboration to elevate the practice of pediatrics throughout the region.

Congress Website and Online Registration are Now Open:

The official website, [Home \(apcp2024.org\)](http://Home (apcp2024.org)), is now live and serves as the virtual gateway to the Congress. The website contains essential information and resources for prospective attendees including details on the scientific program, registration guidelines and travel essentials. Delegates can now register and pay online for both the Pre-Congress Modules and the main Congress.

For the registration guidelines and rates, please click on the link below:

Scientific Program Highlights:

The scientific program for the 18th Asia Pacific Congress promises a diverse learning experience for all delegates. The Pre-Congress Sessions on November 14 will start the event with eight regular Pre-Congress modules covering essential pediatric topics and a special Pre-Congress Session: the Immunization Partners in Asia Pacific (IPAP) Vaccinology Masterclass.

Throughout the three-day main Congress from November 15 to 17, attendees will have the opportunity to listen and participate in ten plenary lectures and simultaneous symposia on subspecialty topics with practical applications in general pediatric practice. With approximately 30 invited regional experts and a wealth of renowned Filipino experts, the scientific program ensures a comprehensive exploration of the latest updates, innovations, and best practices in pediatric healthcare.
